

The value of Powertrain[®] replacement U-Joints

SPICER[®]

Thrust pad minimises wear.

Bearing Race I.D. crowning reduces trunnion galling and flaking and compensates for yoke deflection.

Lube Retention Valve maintains lubricant in bearing area.

Uniform case hardening provides maximum wear surface and resists surface distortion.

Forged journal cross, carburized and hardened for extended service.

Grooved trunnions ensure maximum flow of grease to needle bearings.

Tapered Roller Ends ensure needle retention.

Grease fitting facilitates maintenance.

Bearing with "Long Life" Seals retains lubrication and excludes harmful

Powertrain[®]. Because anything less than Dana technology isn't worth the chance.

SPICER UNIVERSAL JOINT KITS

INSIDE SNAP RING STYLE REPLACEMENT KITS

K		D		N	O	Lube Fitting	Original Equipment		Spicer Part No.
Snap Ring Dimension		Bearing Diameter		Cross Trunnion Diameter	Cross Overall Length		Manufacturer	Series	
Inches	mm	Inches	mm	.505"	2.078"	Yes	Spicer	1000-SG	M85113737
